

Benefits of Tenon® Construction Chemicals

- Enhance the performance of Tenon® construction and repair products
- Chemically balanced to meet performance needs and environmental concerns
- Package sizes optimized to meet project needs

Tenon® Concrete & Masonry Dissolver is an environmentally-friendly liquid alternative to aggressive acid concrete removers

Use Tenon® Set Retarder in warm weather where extended working time is needed for proper placement

CONSTRUCTION CHEMICALS

SUPERFLOW

- Reduces segregation at design slump
- Increases durability and uniformity
- Increases strength at all ages
- Improved finishing characteristics of flatwork

ENVIRONMENTAL RESTRICTIONS	No
VOC CONTENT	0 g/L
UNIT SIZES	1 gal, 5 gal, 55 gal

SET RETARDER

- Extends workability & placement in elevated temperature conditions
- Liquid formula for optimum incorporation into patching mix
- Reduces likelihood of cold joints in large repair jobs
- Prediluted for ease of use

ENVIRONMENTAL RESTRICTIONS	No
VOC CONTENT	0 g/L
UNIT SIZES	1 gal, 5 gal

SET ACCELERATOR

- Accelerates initial/final set and curing time for concrete and mortar
- Allows earlier finishing of concrete and removal of concrete forms
- Non-chloride, non-corrosive
- Increases early compressive strengths of concrete and mortar

ENVIRONMENTAL RESTRICTIONS	No
VOC CONTENT	0 g/L
UNIT SIZES	1 gal, 5 gal, 55 gal

AIR ENTRAINMENT

- Improves workability & freeze-thaw resistance
- Improved resistance to scaling from deicing salts
- Reduces permeability, increasing water tightness
- Greater plasticity, water retention, and cohesiveness of mortar

ENVIRONMENTAL RESTRICTIONS	No
VOC CONTENT	0 g/L
UNIT SIZES	1 gal, 5 gal, 55 gal

MIGHTY BOND

- Enhances adhesion and durability
- Improves workability and curing
- Increases bond strength
- For interior or exterior use

ENVIRONMENTAL RESTRICTIONS	No
VOC CONTENT	0 g/L
UNIT SIZES	1 gal, 5 gal, 55 gal

FORMGUARD

- Chemically reactive
- Increases the life of all concrete forms
- Reduces form cleaning and repair
- Helps prevent deterioration and corrosion of steel

ENVIRONMENTAL RESTRICTIONS	No
VOC CONTENT	< 400 g/L
UNIT SIZES	5 gal, 55 gal, 275 gal

CONCRETE & MASONRY DISSOLVER

- Ready to use (no mixing or diluting)
- Non-toxic to plants and vegetation
- Does not contain any harmful acids
- Non-corrosive and non-fuming

ENVIRONMENTAL RESTRICTIONS	No
VOC CONTENT	0 g/L
UNIT SIZES	28 oz, 1 gal, 5 gal, 55 gal

CONCRETE & MASONRY DISSOLVER RM

- Designed for ready mix applications
- Enhanced with a foaming agent to help cling to vertical surfaces
- Non-toxic vegetation, non-corrosive, and non-fuming
- Safe to use on painted surfaces

ENVIRONMENTAL RESTRICTIONS	No
VOC CONTENT	0 g/L
UNIT SIZES	5 gal, 55 gal, 275 gal

Tenon® FormGuard effectively prevents bonding of concrete to forms & form liners
