

# TENON<sup>®</sup>

## Dissolve SiO<sub>4</sub>

## Enhances color with a natural finish

Tenon<sup>®</sup> Dissolve SiO<sub>4</sub> is a spray equipment cleaner for liquid silicate sealer/hardener products. Specifically designed for use with Tenon Trowel Ice, Tenon Cure & Harden, and Tenon Hardener LS.

### Features:

- Compatible with steel, brass, or plastic spray equipment
- Excellent for cleaning sprayer tips
- Does not contain solvent
- Pre-diluted & ready to use

### Uses

- Dissolver for cleaning cured liquid silicates from sprayer tips and sprayer equipment.
- Can be used to clean tools and equipment that have been coated with a silicate resin.

### Application

1. Scrape off excess build-up if possible.
2. Apply Tool Cleaner to larger equipment with suitable sprayer.
3. Let the cleaner stand for 3 - 5 hours or overnight.
4. Re-apply as necessary and cover area with plastic to prevent drying.
5. Soak smaller contaminated parts in a container of Dissolve SiO<sub>4</sub>.
6. Scrub area with a bristle brush and rinse thoroughly with clean water.
7. If necessary, repeat the process to achieve desired results

### Coverage

- One gallon can provide multiple cleanings.
- May be reused until liquid becomes cloudy and opaque.

### Available In:

Tenon Dissolve SiO<sub>4</sub> is available in a 1 gal. (3.78 L) bottle and a 5 gal. (18.93 L) pail.

**1 Gal.**
